

Dear Valued Vantage System Owner:

Vantage continually strives to provide you with the most relevant home control and automation solutions on the market and ensure that our products collectively deliver on our brand promise – Living Perfection.

As technology continues to evolve and advance at rapid rates, we recognized that our Q System has a limited life. Therefore, last year we announced that we would no longer offer the Q System product line for new projects effective **November 30, 2011**. The Q System provided our industry with a leading-edge lighting control system when it was launched more than 14 years ago. Today, Q no longer provides the benefits we believe users expect from a modern control and automation solution. However, we recognize the significant investment you have made in your Vantage system. To protect that investment, we will continue to provide service and warranty replacement parts, along with ongoing technical support, for an extended period of time.

With this type of eventuality in mind we have also done our utmost to provide a seamless upgrade path to our latest solution – InFusion. The InFusion system is a future-ready control and automation solution employing a technology platform that will remain relevant for years to come. It provides A/V and touchscreen integration, mobile control, Internet access, energy management capabilities, advanced keypad support, LED lighting control, and more.

With the release of our new User Experience products beginning in the 4th quarter of this year you will want to migrate to the InFusion Platform in order to enjoy the simplicity and speed of these new LCD interfaces. To facilitate a smooth transition in preparing for the launch of these new products we are implementing several incentives effective immediately, including:

- All new Q to InFusion projects registered by December 31, 2012 will receive a 15% discount on Q to InFusion upgrade kits purchased by December 31, 2012.
- All new Q to InFusion projects registered by December 31, 2012 will receive a 10% discount on Equinox 4 LCD keypads purchased by June 30, 2013.
- A five-year warranty on new InFusion products added to the home (on all products where the standard product warranty is five years).
- In addition, customers that upgrade from EasyTouch to EasyTouch II by June 30, 2013 will receive a 15% discount on the EasyTouch II upgrade. Easy Touch II keypads can be ordered on the advance replacement program and Easy Touch keypads must be returned to Vantage.

Please contact your authorized Vantage dealer to receive more details on this program. Again, this is a limited-time offer that will only be available until **December 31st, 2012**.

Sincerely,

Timothy R. O'Loughlin
InFusion Hardware Product Manager
